

EDUCATIONAL ARC

We are as great as the challenges we have the courage to undertake.

- Rabbi Lord Jonathan Sacks

We'll begin our Values in Action journey by focusing on the issues and challenges confronting our learners. Through this examination, we'll uncover the opportunity that values allow us to identify the most authentic and productive ways to contend with these issues.

Next, we'll practice narrowing the scope of an overwhelming issue by focusing on a value that, when explored, can lead learners to new insights about how to contend with the challenges that face them.

Finally, we'll explore the power of protecting timing and space for our learners to articulate their new insights so that they can take productive, positive, and values-driven action in the face of the challenges facing them.
